J.R.R. TOLKIEN'S THE LORD OF THE RINGS, VOL. II

The Two Towers™

Tolkien's Epic Middle-Earth Trilogy Continues!

The legendary tale lives on, as *The Two Towers™* picks up where the critically acclaimed *The Lord of the Rings, Vol. I™* left off. The wicked Lord Sauron persists in his quest to capture the one true ring of power. But now the Evil Wizard Saruman, with his insatiable lust for power, is after it as well.

You, the player, control a party of benevolent characters in this captivating, role-playing adventure as they battle orcs, trolls, wargs, ghosts, and elephants. You'll travel through the dark and mysterious Forest of Fangorn, over treacherous mountain passes, past the great fortress cave complex, through the ghastly marsh of the eternal spirits and, ultimately, come face to face with the mysterious two towers.

All the color and imagery of Middle-earth comes to life with state-of-the-art, 256 color VGA graphics, a new and enhanced interface, full musical score, digitized speech, and colorful animations. *The Two Towers™* is a stunning sequel that will involve you deeply in the Tolkien experience.

- Amazingguy
- Full screen, 256 color VGA graphics
- Complete musical score and digitized speech and sound effects for all major sound boards
